DAILY PITTSBURGH GAZETTE.

THURSDAY AFTERNOON, DEC. 26, 1833.

☞CONGRESS did not sit on Saturday—of course we have nothing later than what we published in our last paper.

☞ECLIPSE OF THE MOON takes place this evening.

THE CROSS CUT CANAL.—In our last paper, we offered some arguments to show that the trade of Lake Erie would naturally be drawn to Philadelphia, so soon as the canal from Akron to the mouth of the Mahoning is completed. We then stated that the trade of the country along the Ohio canal would still more strongly be drawn in the same direction. Arguments to prove this, seem, to our mind, to be too clear to be repeated; but having lately seen, in an influential paper, in Philadelphia, a doubt suggested as to the expediency and policy of making this cross cut, we are induced to pursue this matter a little further.—The canal commissioners state, in their late report, that the Pennsylvania canal will, in ordinary seasons, be open on the *tenth of March*, of each year—generally it will be open several days sooner. In the certificate of the collector at Cleveland, it appears that, in five years, the navigation from that port to Buffalo was not open before the *seventeenth of April*—and that, in *three* out of these *five* years, it was not open until after the *eighth of May*, and one year not until the *twenty third*.

Now, let the editor in Philadelphia, to whom we refer, suppose that a boat, loaded with produce, had arrived at Akron, on the 15th of March, in any year after the cross cut is finished—which rout would its owner take? He knows that the Lake, to Buffalo, will not be open, in all probability, for *thirty three* days, i. e. till the *seventeenth of April*, and may not be open for *sixty nine days*, or until the *twenty third of May*. He knows that in *fourteen days* his produce may be in Philadelphia, and that in *thirty three* his return cargo may be on the Ohio canal on its way to his home. He knows that Buffalo harbor may not be open until the *twenty third day of May*, and that, before that time, he could make *two trips* to Philadelphia and back.—He knows that the transportation along the canal is safe, and certain as to time—that the lake transportation is both hazardous and uncertain in duration. Under such circumstances, can any doubt exist as to the rout to a market which he will select?

TRADE OF CLEVELAND.—We publish, to day, a table, furnished by the Collector of this port, of its trade, during eight years, from 1825 to 1833.—The enormous increase both of the exports and imports, must satisfy every person that the trade of the country, along the Ohio canal, is *already* an object worthy of the most strenuous exertions of this state. But the present amount of this business, great as it is, is but a trifle; an insignificant morsel, when compared to what it will be twenty, ten, or even five years from this time.—The country along that canal is but lately and sparsely settled, and must and will continue, for some years, to increase with great rapidity; and the supply of domestic productions, as well as the demand for foreign production, must continue to grow with the growth of the population.

Again—the country along the Ohio Canal, extensive as it undoubtedly is, is still but an inconsiderable portion, when compared with the immense region which is drained by the rivers which discharge themselves into Lake Erie.—Look, in the first place, at the Sandusky and Mad River Rail Road, which, when completed, must direct to the Lake the products of the immense country through which it passes. Then behold the Maumee and Wabash Canal, which is already in the course of execution, which passes through a country equaling in extent, and surpassing in fertility, that along the Ohio Canal, and which will pour upon the bosom of Lake Erie the entire productions of that immense and fertile region. Look, finally, at the thriving and rapidly increasing territory of Michigan, whose only avenue to a market is through Lake Erie.—Take all these into view, with their certain increase in a few years, and we may have some adequate conception of the immense trade which will decidedly prefer the rout to a market through the cross cut and Pennsylvania Canal.

A SERMON

Will be preached by the Rev. Mr. Riddle, on the evening of the 29th inst., in the Associate Reformed Church, when a collection will be taken up to aid the funds of the Young Ladies' Bible Society. MARY A. S. BAIRD, Sec'y.

December 26, 1833.

COMMUNICATED.

To Master Mechanics and Apprentices.

It is proposed to commence, on the ensuing Sabbath, in the room of the Young Men's Society, corner of Fourth and Market streets, a class for the instruction of apprentices in the Bible.

The course will embrace such portions of the Political and Civil History of the Jews, Geography and Antiquities of the Holy Land, Manners and Customs of the Jews, History of the Writers of the Sacred Books, and other kindred subjects, as will render it both interesting and instructive to the youthful mind.

An Apprentices Library will be established, in connection with this object, embracing works of a general character, for the sole use of the members of the class.

Apprentices, from the ages of 14 to 21, are earnestly invited to attend and connect themselves with the class at its commencement.

Master Mechanics, Parents, and Guardians, are also solicited to use such influence, with those apprentices under their care, as will secure their attendance.

The first meeting of the class will be held on Sabbath next, at half past 1 o'clock, P. M., and regularly on each Sabbath thereafter, at 9 o'clock, A. M., and half past 1 P. M., each meeting to continue one hour and a half.

Lydia Kile *vs.* Joseph Miller.—Action for breach of promise of marriage—verdict for plaintiff $587 50 cts. Fetterman for plaintiff, Watts for defendant.

The plaintiff in this case was a poor girl, and the defendant a butcher. The case was one of considerable aggravation, and the cause was argued with great ability by the Counsel for the parties.

It is due to Judge Greer, who held the Court, to say that, thus far, he has discharged the duties of his station with a firmness and ability that have given the bar, and the public generally, very great satisfaction. In nothing was the wisdom of the last Legislature more manifest than in the establishment of this Court. The docket of the Common Pleas was overloaded with business, and the labor that was imposed on the President of that Court, was more than he was well able to bear, notwithstanding his very superior faculties for the rapid and able despatch of business.

A few modifications are required in the law creating the District Court; and, with an enlargement of the term of the Supreme Court, so as to compel it to pass in judgment on the alleged error of the judgment of the Common Pleas and District Court before they were forgotten, even by the Counsel who tried the causes, will enable the people of this county, in a short time, to have justice administered to them "freely, without denial, and fully, without delay."

If Pennsylvania has to borrow money this year to carry on her internal improvement, we would like to know where the money is to be obtained;—but even if it is to be had, there will be no *premium* now to pay the interest on former loans.—*U. States Gazette.*

It is generally known here that a meeting of Presidents of Banks took place on Thursday last—the measure being adopted for the purpose of devising some means to meet and relieve, if possible, the present distress. The meeting adjourned until to day, for the purpose of laying several resolutions before the different Boards of Directors.

The result of this meeting we may be able, perhaps, to give to our readers to morrow.—*Phila. Herald, Monday, December 23.*

From the N. Y. Commercial Advertiser.

VERY LATE FROM ENGLAND.

This morning we received our London papers to the 15th of November, and Liverpool of the 16th, both inclusive. These papers were brought to us by the news boat Thomas H. Smith, belonging to the Association, and were received from the packet ship Europe, Captain Maxwell, which vessel sailed from Liverpool on Sunday, the 17th of November, and was boarded off the Coast forty miles from Sandy Hook.

ENGLAND.

There is no political news worth noticing.

CAPTAIN ROSS.—A theatrical representation, entitled "Captain Ross, or the King of the Arctic Regions," was recently brought out in the Royal Pavilion Theatre, White Chapel road. The gallant Captain attended *in. cog*—but his presence becoming known by accident, the theatre was soon crowded to excess.

At a late meeting of the Geographical Society in Regent street, the intrepid Captain Ross attended for the purpose of receiving the royal medal of fifty guineas, which had been voted to him for his scientific and geographical discoveries in the Arctic regions.

There has been a continual fall in the price of Wheat ever since the commencement of the late harvest.

Kean died intestate, and although it is ascertained that he had received the sum of £150,000, or nearly $750,000, he died so poor, that his widow has not deemed it advisable to take out letters of administration upon his estate.

Mr. Heber's representatives are sanguine of obtaining from £50,000 to £60,000, by the sale of his immense literary treasures.

The death of the Rev. Woolf Gollin, one of the Jewish Beth Din, is announced. He was highly eminent for his great biblical learning and knowledge of the Hebrew language. The venerable Doctor Herschell delivered a suitable discourse on the occasion.

STATE OF TRADE.

LEEDS, Nov. 15.—The woollen cloth trade in Leeds, and its neighborhood still continues moderately good. There are, comparatively, few hands unemployed, and the sales in the cloth halls indicated a slight improvement in the demand.

Bradford market, on Thursday, was very dull. The manufacturers still hold out, in consequence of the high price of wool and the merchant refusing to give the advance. In one or two instances the manufacturers have reduced wages.

Rochdale flannel market.—This market was brisker on Monday than it has been for several weeks past. There was a numerous attendance of both buyers and sellers. Middle and low kinds of goods sold very freely, and fine qualities fetched better prices.

At Halifax market, on Saturday, there was rather less business done in stuff goods than there was on the preceding market day.

At Huddersfield market on Tuesday also more business was done, but there was no change in prices.

At Dewsbury the flannel trade continues dull.

LANCASHIRE.—The cotton factories at Royton, Shaw, Oldham, and Heywood, have nearly commenced working full time, and there is a better prospect for the cotton trade. The silk weaving business, for several miles round Manchester, continues to be very bad. Above one half of the hands are out of employment.

IRELAND.

The intelligence from this country bears too much its ordinary impress. Burnings and murders, beatings, robberies, and maiming, continue to prevail.

The potato crop, too, especially in the southern part of the Island, has fallen vastly short of its usual rate of production.

The gross amount of the O'Connell tribute last year was £12,533.

It is again in contemplation to construct a rail road between Limerick and Waterford.

FRANCE.

The vintage of the present year is said to be much better and more abundant than the last, but still to fall short of an ordinary produce by about one fourth.

The Moniteur contains a Royal Ordonnance, convoking the French Chambers on Monday, the 23d of December.

SPAIN.

The papers received by this arrival give an additional reason to believe that the cause of the Queen Regent, of Spain, in support of her daughter's title to the throne, will be sustained by the French Government. It is reported that the Queen's mother has been compelled to leave Madrid, but there is no confirmation of the news. It has been also said that the French Army of observation had crossed the Spanish frontier for her relief. This however, was also a matter of doubt; for it does not appear that her case was desperate. The recent movements of General Sarsfield were unknown, but he had not been beaten; nor had he gone over to the Carlists. *E. Pastor* and General *Castagnon* had received a check, and the Carlist force to which they were opposed, amounted to 12,000 men; but St. Sebastian had not surrendered.

The aspect of affairs on the part of the Queen Regent, is by no means flattering, unless she obtains early and effectual succor from foreign powers.

PORTUGAL.

Our advices are no later from Lisbon than November 2d, inclusive. Party spirit was running high in the Portuguese capital. It was believed that affairs would proceed with more domestic harmony, if foreigners, both ashore and afloat, would cease their officious intermedling. Orders have been received in England, directing the agents of Don Pedro to enlist no more recruits. We presume, therefore, that the contest is considered in effect to have been decided.

HOLLAND.

Dutch papers are to Nov. 17. It is stated in one of them, that the mission of Prince Schwartzenberg to the King, had met, at the hands of his Majesty, with entire success. The Prince had just left the Hague on his return to Berlin, bearing with him a snuff box set with brilliants, and other marks of favor of the King. Of the exact nature of the Envoy's propositions, as regards the Belgian dispute, we are uninformed; but their tenor is understood to be very moderate and conciliatory. There is, as yet, no palpable manifestation in their Dutch councils of a better disposition to accommodate than has yet appeared.

The Journal of the Hague says there is no truth in the reports spread by a French Journal of the union of part of Luxemburg with the Prussian province of the Lower Rhine. It denies that any arrangement has been made, and that Germany will not abandon any of its rights over the whole of Luxemburg.

BELGIUM.

The King has returned from Paris, and opened his Chambers with a speech. He is silent as to the commercial state and prospects of his Kingdom—because every thing is gloomy. The public credit of the country was to be strengthened by the investment of a large balance belonging to the King of Holland, which remained in the hands of the public treasurer, in the Belgian funds.

There is not, throughout the whole address, a single sentence to favor a presumption that the squabble with Holland is approximating to a conclusion.

RUSSIA.

A letter from Pultawa, in the Ukraine, presents a deplorable picture of the extremity to which the population of that fertile part of Russia is reduced by the total failure of the crops. The inhabitants are obliged to feed on roots. A great number have perished through exhaustion. Corn has risen to an excessive price, for more than fifteen times its ordinary value.

Still later advices from St. Petersburgh, reaching to the 1st of November, show that the famine is by no means confined to the province of the Ukraine.

By a resolution of the Ministerial Committee, every kind of corn is allowed to be conveyed *free of duty*, and even in foreign vessels, from one Russian port to another, this permission to remain in force, for the whole ensuing year.

Accounts from Archangel, of Oct. 9, say that the number of ships that had arrived since the opening of the navigation, was 365; 333 had sailed up to October 27; 1,227 ships had arrived at Cronstadt; and 1,015 sailed.

LATEST FROM PORTUGAL.

Capt. Mollien, of the Swedish ship Preciosa, arrived at New York, from St. Ubes, informs that great consternation prevailed among the inhabitants, in consequence of the proximity of Don Miguel's troops, and every boat was in requisition to convey them to a shelter among the shipping. Reinforcements were constantly arriving from Lisbon, and hopes were entertained that he would be defeated. He could obtain no newspapers.

Capt. M. further informs us, that a severe battle was fought near St. Ubes, on the 3d, in which the Pedroites were completely routed, some of the soldiers entering the city in a state of nudity, and otherwise wretchedly off. Great praise is given to the sailors belonging to one of Don Pedro's frigates, who were in the action; but the soldiers are considered a dastardly set, frightened at the sight of a musket. A steam boat had attempted to land some men near the Miguelite force, in order to attack them, but was prevented by the surf.

Among the new medical works recently published in this city, none surpasses, in novelty and elegance, Dr. S. G. Morton's Illustrations of Pulmonary Consumption, from the press of Messrs. Key & Biddle. By a series of twenty one colored engravings, the volume exhibits a precise idea of the disease in question, from its origin in minute and almost microscopic tubercles, to the destruction of the lungs, by open abscesses. The treatment of the disease, including the influence of climate, is examined at large, and with much ability. We have no hesitation in believing that the work will be a valuable acquisition for professional men, and especially to those who, from their residence in the country, are, in a great measure, debarred from investigations of the kind embraced in this volume.—*Nat. Gaz.*

A ready made Canal.—The Kingston, U. C. Herald tells us that a canal was lately made without any previous flourish of an incorporated company. During a recent storm, a channel was made thro' Long Point 300 yardes wide and from 11 to 15 feet deep. It was, before this event, in contemplation, to cut a canal to this place, the estimated expense of which was 12,000*l*. So much saved.

We learn that a resolution has passed the House of Representatives of this State, by a majority of one third, directing an examination, and a report to be made on the finances of the State, for the purpose of ascertaining the propriety of granting a charter to the Bank of the United States, should it not be renewed by Congress. Mr. Keating is Chairman of this Committee.—*Phila. Herald.*

Review of the Philadelphia market, for the week preceding Dec. 21st, 1833.

COTTON—For South Carolina Upland, 14c. was refused for a considerable lot. We can only report the actual sales of about 250 bales of Virginia, N. Orleans and Upland, at from 13 a 14 3-4 cents. About 700 bales constitute the stock on hand, and prices are declining.

COFFEE—The market is depressed, and all sales we have to report are very trifling. 50 bags Cuba at 11 3-4; 15 bags Java, very good at 14c., there are only a few hundred bags of the latter description in market, and that of very superior quality.

DOMESTIC GOODS—Every article under this head is very dull—demand usually very small at this eason.

FLOUR AND MEAL—No change during the week has occurred in the flour market. The sales comprise about 5,000 barrels of superfine, at $5 25, and 450 bbls. scraped at $5. In corn meal few transactions have transpired—the only one within our knowledge is 200 bbls. at $2 87 1-2. We are not apprised of any further sales.

RICE—More brisk than last week—the stock is sufficient for the demand—sales have been effected at from 3 a $3 50.

SUGAR—The stock of all kind is very moderate, the grocers only purchase for present demand—the new crop from New Orleans comes in very slowly, and 300 hhds. would probably comprise the whole in first hands; 150 hhds. from St. Jago, and a lot from Porto Rico, have arrived. The only transaction within our knowledge is a sale of 70 hhds. of new crop New Orleans, at 8 1-2 cts.

TEAS—Small sales of Y. Hyson to go out of the city, at from 60 a 95 c., according to quality. See quotations for other kinds.

WOOL—Considerable inquiry has been made this week for this article—stock on hand is very light, and some sales have been made at our highest quotations.—*U. S. Gaz.*

FAIRBANK'S PLATFORM SCALES.

THESE scales are constructed upon an improved principle; are fitted up with great care by the manufacturers, and warranted to weigh with accuracy from half a pound to 12,000. Being placed in, and forming part of, the floor, the process of weighing is performed with ease and facility, while the space they occupy may be improved as a passage way or for other purposes.

The construction of these scales is such that they are little liable to derangement of wear, and their perfect operation will be guaranteed for any reasonable length of time.

The usual objection, that a new method of weighing cannot be safely entrusted to unskilful hands, is obviated by the use of the improved BALANCE, concerning which are the following remarks in the Journal of the Franklin Institute, of the state of Pennsylvania, for the promotion of the Mechanic Arts, for June, 1833. (Edited by Thos. P. Jones, M. D., late Superintendent of the Patent Office, at Washington, Professor of Mechanics in the Franklin Institute, &c.

"The Messrs. Fairbanks ... tained a patent for a Platfo... and this mode of adjuating ... Beam of the Balance, and the... ed by them with a view to it... the before mentioned machine. ... opportunity of examining one of ... and have been much pleased with ... ation, however, was not necessary ... tion that it possesses a just claim to ti... of a real improvement, the whole ar... being so simple as to enable any perso... ceive that it is well adapted to the purpo... templated, that of facilitating the business of ... ing, and more especially of heavy articles."

The subscriber, as Agent, will receive orders ... the above Scales, which will be made in this city to order. They can be seen at his Warehouse, No. 84, Front street.

SALE OF REAL ESTATE.

THE Subscribers, Trustees of the New Philadelphia Society, at Phillipsburgh, Beaver county, Pennsylvania, offer for sale the following property, to wit:

1	tract of land containing		330 acres
1	do	do	330
1	do	do	67
1	do	do	7
1	do	do	40
other lots, containing about			6

The above lands lie in one body, fronting about two miles upon the Ohio river—immediately opposite the mouth of Big Beaver creek, and the Beaver Division of the Pennsylvania Canal. The land is rich, and a part of it under a high state of cultivation—its location pleasant and healthy. The improvements upon the same are valuable, including the town of Phillipsburgh, late the residence of Count Leon, and the New Philadelphia Society. The town contains about 40 Dwelling Houses, now in order; some of them brick houses and two stories high. A large and spacious Hotel, a Store house, Church, a number of Shops, for mechanics, Stables, Barns, and other out houses. Also, two large new buildings, lately erected, but not yet finished, one of brick, the other of frame (the latter suitable for a manufactory) a very extensive public garden, and also fruit trees of various kinds. The property has also attached to it the right of a ferry across the Ohio, which is valuable, and becoming more so every day.

The above property is situated in the midst of a wealthy and prosperous country, distant about 28 miles below Pittsburgh, and one mile from Beaver, the seat of justice for Beaver county—and having a view for many miles up and down the Ohio, and of the country to a great distance around.

The subscribers are confident in saying that few situations could be found, presenting greater facilities to the farmer, mechanic, the manufacturer, and others—a soil rich and productive—the neighborhood abounding in coal—well timbered and watered, and, by means of the Pennsylvania Canal, and steamboat navigation, a cheap and ready conveyance to market, and a communication with other places is ensured.

The property is susceptible of divisions into farms, or for the location of new towns, or for the extension of the present one.

Should it not be sold on or before the first day of January next, it will then be offered at public sale, upon the premises, to the highest and best bidder.

It will be sold in a body, or in parcels, to suit purchasers.

Terms of sale will be reasonable.

Information can be had by enquiring of the subscribers, two of whom live in the neighborhood, and one on the premises.

It restores and revives the animal spirits, invigorates the system, removes nervous tremors, obtunds rheumatic and anthritic pains, and prevents their return. It cleanses the stomach of all morbid humors, which cause indigestion, acidities, headach, and lowness of spirits; cures all bilious disorders, and all cholics of the stomach and bowels, almost immediately; inspires cheerfulness; gives comfort to the dropsical; takes away palpitation of the heart; gives circulation to the blood; restores bloom to the sallow or sickly cheek, and plumpness to the meagre habit; purges without pain, and banishes all cause of fever of every kind. It acts on the stomach, that great reservoir of the human system, a diseased state of which causes all diseases. No alteration in the usual habits of life is required, but the abstaining from distilled ardent spirits.

CERTIFICATE,

From Rev. Derick Lansing, D. D., Pastor of the Second Presbyterian Church in Utica.

UTICA, Jan. 6, 1830.

To Dr. Hitchcock.—Dear Sir: I have always been one of the number of those who have placed little confidence in *nostrums* or *specifics*, and for this reason, although I saw your advertisement of the Welch Medicamentum, I could not bring my mind to consent to use it. My sufferings, from indigestion, during the past summer, were so severe, as materially to affect my comfort, and my capacity for usefulness. I have reason to thank you, sir, that, on hearing of the state of my health, you kindly sent me your Medicamentum. I have taken it faithfully, and with entire success. I have not been visited with one of those turns of distress, which before were weekly periodical, since I began to take your valuable medicine. Could I receive the same relief which I have hitherto experienced, on condition of taking it for life, I should cheerfully comply with such condition. Your's, very truly, D. C. LANSING.

ANTI-DYSPEPTIC ELIXER.

ONE of the most agreeable and efficacious Medicines ever discovered for the permanent cure of those chronic states of derangement of the stomach, constituting that miserable disease called Dyspepsia.

The basis of this Elixer s vegetables, and perfectly innocent in its operation; it destroys that sour state of the stomach, the instant it is taken, and stops the morbid secretion, by giving strength to the muscular fibre of that important organ, by which means the peristaltic motion of the intestines is increased, and the costiveness obviated; a new action is given to the system, which puts an end to a train of distressing nervous sensations.

Another form of the disease in which the Elixer is admirably calculated to relieve, is the decline of fever, where the stomach will not bear the ordinary strengthening medicines indicated in such cases, it has the surprising effect of giving vigor, and restoring the natural secretions of the body, without increasing the febrile state. Not the least danger is to be apprehended from exposure to cold, while under the use of this medicine, nor will it interrupt necessary employment of the patient a single hour.

☞A number of cases of cures performed by the Anti-Dyspeptic Elixer in the vicinity of Pittsburgh can be given.

GEO. W. CARPENTER'S
COMPOUND SYRUP OF LIVERWORT,

A SAFE and Valuable Medicine for Coughs, Spitting of Blood, Consumption, and Liver Complaints.

Most of the medicines made use of for the above diseases are of a stimulating nature, composed generally of Resins and Balsams, in alcoholic solutions, which, although sometimes giving temporary relief, in almost every instance where they are freely used, aggravate the disease, and reduce the strength of the patient.

This article possesses superior advantages over these preparations, its action being of a tonic, invigorating and strengthening nature, thus overcoming the disease by promoting expectoration, and gradually increasing the strength of the patient, and thus, without being attended with any unpleasant effects: it also agrees with the stomach, in a cases, and is a pleasant medicine to take.

PATENT PLANING MACHINE.—The right to use this valuable machine, invented and patented by William Woodworth, and known as Woodworth's Patent Planing Machine, may be obtained on application to the subscriber for the counties of Allegheny, Butler, Beaver, Washington, Green, Fayette, Somerset, Cambria, Indiana, Jefferson, Clearfield, M'Kean, Warren, Venango, Mercer, Crawford, and Erie, in the State of Pennsylvania. That part of Maryland lying west of the Blue Ridge; all that part of Virginia lying west of the Blue Ridge, except the county of Ohio. The whole of the state of Ohio except the counties of Hamilton, Butler, and Montgomery. The whole of the state of Kentucky, except the counties of Jefferson, Boone, Oldham, Gallatin, and Campbell. The whole of Indiana, except the counties of Floyd, Clark, Jefferson, Dearborn, and Switzerland. The whole of the state of Illinois, and the territory of Michigan. Rights to use the machine in that part of the United States, named above, will be sold by the single county or in larger districts. As it is presumed that no one will purchase without seeing the machine at work, a description of it is deemed unnecessary. Should any person, however, wish to purchase, and find it inconvenient to visit the places where it is in operation, a machine will be furnished, warranted to plane, tongue and groove, and bring to an exact width and thickness, a white pine board of 12 feet long, and of any width from 1 to 14 inches, in one minute and ten seconds, or an oak board of the same dimensions in 2 minutes and 10 seconds. Machines may be seen at work in the cities of New Orleans, Washington, Philadelphia, New York, Boston, and others at the south and east, at Wheeling, Virginia, and at the saw mill of Messrs. Irwin & Herron, in this city.

Persons desiring to purchase will have the certificates of scientific and practical men who have seen it at work, in the different places in which it has been put up, forwarded to them. They give their opinion as to the great value of the invention, state the time they have seen boards dressed by this machine, and describe the quality of the work as compared with that performed by hand labor.
